Summary

Software developer, passionate about DevOps technology. I love learning new technologies, especially in web backend development and cloud engineering. Self-tough, adaptative, autonomous, and proactive, my academic background in process engineering and my IT skills give me a quality assurance vision of software development workflow.

Experience

Software Developer
Smart'N'Go
Sep 2019 - Sep 2020 (1 year 1 month)
Development of a customized admin web app using Django framework. The system has an interface that allows to create and manipulate information from a PostgreSQL database.

Main tasks performed:
- API Rest
- Database management
- Validation tests
- Deployment on AWS (EC2, RDS)
- Docker
- Agile scrum methodology
- Gitflow as branching model

Quality Control Manager
Tratamientos Químicos Industriales
Aug 2018 - Jan 2019 (6 months)
- Product Owner in the development project from scratch of the company's CRM.
- Ensure that raw materials and finished products meet presentation and quality standards.

Technical assistant
Tratamientos Químicos Industriales
Nov 2017 - Jan 2019 (1 year 3 months)
- Ensure the standardization of technical support processes.
- Perform quality analyses in the laboratory.

Quality assurance assistant (civil engineering laboratory)
Universidad del Valle (CO)
Jun 2017 - Nov 2017 (6 months)
- Ensure the implementation of the quality control system.

- Prepare the laboratory for internal audits in terms of document management.

Assistant in laboratory office
Universidad del Valle (CO)

Aug 2015 - Jun 2017 (1 year 11 months)

- Participate in the implementation of the quality control system of the engineering faculty's laboratories.
- Administration of the laboratories website.

Education

Universidad del Valle (CO)
Master of Engineering - MEng, Process Engineering

2013 - 2019

Process simulation, Modeling and Design of industrial facilities, Algorithms, Software development.

Licenses & Certifications

Seminario sobre el desarrollo de auditoría interna para el sistema integrado de gestión. - Servicio Nacional de Aprendizaje (SENA)

Norma ISO/IEC 17025:2005 - Universidad del Valle (CO)

Skills

Python • Django • Scrum • Git • Continuous Integration and Continuous Delivery (CI/CD) • Docker Products • Amazon Web Services (AWS) • REST APIs • Linux • React.js
